ST. ANNE'S ST. PATRICK'S CONCERT MUCH ENJOYED

A packed house greeted the local artists at the opera house last night, when the grownups and kiddies of St. Anne's congregation staged their second annual entertainment.

Every item on the programme was exceptionally well rendered, and those who have had the training of the children for the affair in hand deserve unlimited praise.

The programme consisted of two playlets, entitled: "A Garden Cinderella" and "Aunt Dinah's Quilting Party," songs, dances, choruses, recitations and orchestral selections.

The play, "A Garden Cinderella," had its setting in a garden on a 1927 summer midnight, and the characters were represented as follows: Lily, Leona McDonald; rose, Lorraine Olivier; forget-me-not, Evelyn Semensini; daisy, Doris Sartoris; buttercup, Florence Picard; green worm, Carlotta Fleming; west wind, Frank Fleming; rainbow fairies—red, Dorothy Campo; orange, Anne Caton; yellow, Eleanor Aschacher; green, Mabel Quarin; blue, Veronica Kubik; violet, Evelyn Nastasi; fireflies—Allan Gillis, Omer Bouchard, Primo Furlano, Joe Belli, Angelo Pozzi, Jim Murphy.

The second scene centred around a garden on a summer midnight in 1928, with Beatrice Trono and Carlotta Fleming cleverly representing the "Spirit of the Garden" and "Luna Moth," respectively. The butterfly dance by the latter was particularly well performed. A chorus, "It's only a step from Killarney to Heaven," was pleasingly rendered by the following: Rose Christy, Annunziata Aschacher, Enis Aschacher, Dorothy Olivier, Rolanda Manquet, Olga Vanta, Jean Bouchard and Anna Kubik.

The characters represented at "Aunt Dinah's Quilting Party" were: Aunt Dinah, Miss K. Tompkins; Marks, Miss A. Picard; Deacon Peabody, Mr. J. V. McDougall; Reuben Holicroft, Bob Collins; Freddie, Milo Fabro; Mrs. Martin, Miss R. Pozzi; Mrs. Doolittle, Miss F. Fabro; Cicely Martin, Miss Dora Drain; Hetty Peabody, Miss L. Brunetto; Mirandy Spriggins, Mrs. Fleming; Nellie Sanderson, Miss Sophia Kubik; Grandma Pepper, Mrs. T. Murphy; Mr. Goodboy, Mr. J. Roufasse; Mr. Hunter, Mr. L. Pozzi; attendant girls, Polly Biegan and Anna Kubik; attendant boys, Norman Picard and John Chala. Many a scream of laughter was elicited during this performance and the house was really brought down by Milo Fabro in his dramatization of the unruly school boy.

Several solos by Miss L. Brunetto were well received, as were also the selections by the new Picard orchestra.

Mrs. G. M. Bond acted as piano accompanist throughout.

This splendid programme concluded with the singing of "God Save Ireland" and the National Anthem.

The artists have been invited to stage their programme at Bellevue, Coleman and Pincher Creek and arrangements have been made for their appearance at Bellevue tonight, and at Coleman Tuesday night next.

Following were the lineups for the Trail-High River games at Calgary on Saturday and Monday nights: Trail—Goal, Garland; defence, Anderson and Reddick; forwards, Kennell, Gustason and Brennan; subs, Mackie, Wheatley and Lyons. High River—Goal, Blayney; defence, Riley and Robertson; forwards, O'Neill, Murray, Pruden; subs, Henderson and Taylor. Wheatley, Reddick, Anderson, Gustason, Mackie and Brennan were former members of the teams in this district.

The woman of the hour is the one who says she will be ready in a minute.

WILSON—WHITE NUPTIALS

A very pretty wedding ceremony took place at St. Alban's Anglican church, Coleman, at 7 o'clock on Monday evening of this week, when Mrs. Mary Anne White was united in matrimony to Mr. George Montague Wilson.

The ceremony was performed by the Rev. A. D. Currie, when the edifice was crowded to standing room by friends of the popular couple. Miss O'Dell, of Coleman, and Mr. J. P. O'Neill, of Blairmore, acted respectively as bridesmaid and best man.

Following the ceremony a reception was held at the Oddfellows' hall, followed by a sumptuous supper, at which upwards of one hundred guests attended.

The toast to the newly married couple was proposed by Mr. W. J. Bartlett, of Blairmore, and was responded to by the groom. Speakers included Rev. A. D. Currie, Mr. J. P. O'Neill, Mr. Jack Cox and others.

The newly married couple were recipients of many costly and beautiful presents.

Mrs. Wilson has been a resident of Coleman for some years, while Mr. Wilson holds the position of traveling auditor for the firm of Burns & Co., Ltd.

WESTMINSTER GLEE SINGERS AT COLEMAN ON APRIL 9th

The Westminster Glee Singers, the only organization of its kind that has engaged in a tour of the British Empire, will appear in Coleman opera house on Tuesday, April 9th.

The company includes seven boy sopranos and eight adult sopranos, from Westminster Abbey, St. Paul's and other English cathedrals. From the larger cities come very glowing press reports of their concerts, and in the Alberta cities they are giving three recitals in Edmonton, four in Calgary, two in Medicine Hat, three in Lethbridge and one each in Macleod and Coleman, opening their British Columbia bookings at Fernie and completing their western Canadian tour with a week's engagement in Vancouver, from where they sail to Australia.

For the convenience of Blairmore and adjacent towns, seats may be reserved at Blairmore Pharmacy, and the public are advised to make early reservations as already a large number have booked seats. They appear in Coleman under the auspices of St. Alban's Anglican church.

K.C. REPRESENTATIVE TO SPEAK HERE

W. A. Wells, representative of the Supreme Council, Knights of Columbus, will address the members of Father Lacombe Council here on Sunday next, March the 24th. Mr. Wells is one of the special representatives who provide a contact between the headquarters of the order and the more than 2000 subordinate councils in the United States, Mexico, Cuba, Porto Rico and the Philippines.

His visit will mark the first time in a year that these councils have played host to a representative of the Supreme Council, and it is expected a full membership will turn out to hear him.

Mrs. B. P. McEwen was called to Calgary last Saturday morning, on account of the illness of her mother. —Hanna Herald. B. P. McEwen was a former resident of Coleman, where he conducted a watchmaking and jewelry business.

Contracts were let during the past month by the Alberta government for the erection of new telephone exchange buildings at Drumheller and Calgary west. Plans have also been completed for new buildings at St. Paul de Metis, Hanna and Grande Prairie.

Children under 16 years (Balcony) 50c

A trip through the Peace River country is planned by the editors of Alberta weekly newspapers, following the annual convention of the Alberta division of the Canadian Weekly Newspapers Association, which will be held in Edmonton during the month of August.

The Claresholm Local Press got this clever one off: "When that five-cent gasoline tax is imposed with the industrial rebate of four cents, it will surprise one just how quickly the province of Alberta will become industrialized."

Edmer Edland, of the Claresholm branch of the Royal Bank of Canada, has been transferred to Bellevue.

WORLD HAPPENINGS
BRIEFLY TOLD

A survey of Fort Churchill will be undertaken immediately by the provincial government for the purpose of laying out a model townsite at Manitoba's seaport.

Charles Angers, former member of parliament, is dead at Quebec, at the age of 71 years. He represented Charlevoix County, at Ottawa, in 1886. He was a Liberal.

Regina's assessment for 1929 will be two and a half million dollars greater than the amount upon which 1928 taxes were struck, it was estimated by R. J. Westgate, city assessor.

Soviet Russia on March 12, celebrated the 12th anniversary of the breaking out of the revolution which resulted in the abolition of the Czar. All shops, business houses and government institutions were closed.

League of Nations officials announced that an agreement had been practically reached on the main points of the protocol for adherence of the United States to the world court of justice.

More than half a billion pounds of dangerous explosives were handled by railroads of the United States and Canada in 1928 without injury to any person, and with a property loss of only \$77, the American Railway Association announced.

The Polish newspaper Rzeczpospolita says it has learned Pope Pius will begin a tour early in 1930, visiting Trieste, Zagreb, Budapest, Cracow, Warsaw, Vienna, Munich, Bern, Dublin, Paris, Madrid and Lisbon.

Bankruptcy proceedings have been instituted against Princess Victoria, sister of the former Kaiser. The Princess, who is living in seclusion at the palace in Bonn, Germany, declined to make a statement. The first meeting of her creditors was called for April 4.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

There's a Reason

Tea, it is rumored, can be improved somewhat by following the Siberian custom and adding just a dash of rum. Once when entertaining in Shanghai, a friend of mine gave tea thus embellished to a missionary, but served the ordinary variety to his wife.

"I just can't understand it," the good lady remarked about half an hour later. "At home John won't touch tea, and here he's having his fifth cup."

Early Heat in Antarctic

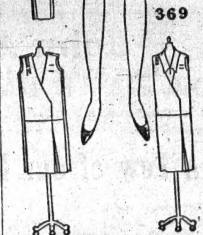

Wilkins Party Halted By Melting Ice At Expedition Base

The Antarctic was almost too warm for airplane exploration during the time the Wilkins expedition was at its base at Deception Island early this winter, Sir Hubert Wilkins, leader of the party, said after his arrival from South America.

The earliest summer season in 14 years melted ice at the expedition base and deprived Wilkins of the use of snow-equipped planes, the explorer said.

Wilkins said he made no attempt to reach the south pole, approaching only within 650 miles of it, devoting his time to preliminary survey for weather observation stations in the Antarctic.

Electric Power In Alberta

Transmission Lines Spreading Over Province At A Rapid Rate

The rapid rate at which electric transmission lines have been spread over the province of Alberta, especially during 1928, is indicated in a recently issued government report. A network of high tension lines now radiates east and west, north and south over the central and southern part of the province. There is a continuous line from Edmonton in the north to Magrath south of Lethbridge, in the south, with the exception of the gap of less than thirty miles between Millet and Ponoka still to be closed.

One power company, with headquarters in Calgary, is operating 332 miles of 60,000-volt lines and 830 miles of 13,200-volt lines. Of this mileage approximately 50 miles of 60,000-volt lines, and 474 miles of 13,200-volt lines were built during 1928, and the company's territory in the north now extends as far east as Wainwright and Hardisty.

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. It afflicts with corns, corns or sore foot, humors, use "PUTNAM'S" reliable, and safe to shroud up the corns so they drop right off. No pain, no soreness, but quick relief from corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c at all dealers.

Tax On Bachelors

Cuba Has Some Advanced Ideas On Legislation

Cuba is not the only country that imposes a tax upon its bachelors, but it is doubtful whether any other nation has shown the enterprise of establishing a governmental municipal bureau where spinsters must file their photographs. That, indeed, seems progress. Cuba is not satisfied with collecting every year its ten dollars from all bachelors who persist in eluding the wife of women. It is moved by nobler and far-reaching ideals. It would bring together those lonely souls, male and female, who perhaps through an inferiority complex feel unable to take the necessary steps which might lead to courtship and the altar. Springfield, Union.

A DANGEROUS MONTH

FOR THE BABY

Mothers Always Dread the Blustering March Days

No month of the year is so dangerous to the welfare of little ones as is March—the month of quickly changing weather. One day is fine, the next cold and blustering. One day dry, the next wet and disagreeable. In spite of all precautions the little ones will take colds and these colds often lead to more serious troubles. Mothers, when the first symptoms appear—measles, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly melt away the cold and prevent the more serious complications.

Mothers who keep a box of Baby's Own Tablets in the home always feel safe—just like having a doctor in the house. The Tablets are a gentle but thorough laxative that sweeten the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or a sore stomach.

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

By living on board private yachts moored on the River Thames, near Westminster, a number of Londoners escape paying rent, rates and house duty in return for a mooring fee of three guineas a year.

Nervous and Run Down

The Least Noise

Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes:—Three years ago I was so nervous and run-down I could hardly bear to have the children make a noise it would bother me so.

"A friend advised me to take

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again." Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

SKI CHAMPION

A Great Canadian

Prof. Showtell Was Close Adviser Of

Woodrow Wilson and One Of the

Authors Of Kellogg Peace Pact—

Mr. E. J. Garland and the Prime

Minister deserve thanks for disclosing to Parliament recently that one of the real authors of the Kellogg Peace Pact is none other than a Canadian, Prof. Showtell, of Columbia University. Canada has given many notable figures to the industrial, commercial and academic life of the United States. It is doubtful whether she has given anyone who has made a more distinguished contribution to the republic than Prof. Showtell. Born in Canada and educated in Canada, Prof. Showtell stands today as one of the most eminent figures in the whole scholastic field of the United States. His name, indeed, is known wherever international or world politics is discussed; the pity is that it is not better known among his own countrymen here in Canada.

Prof. Showtell first arrested world attention when he became one of the close advisers of Woodrow Wilson in the sphere of foreign affairs. When the Peace Treaty of Versailles was in the making, he was in Paris; and later on, in pamphlets and numerous volumes and newspaper articles and lectures he has dealt with international questions with a scholarship and sure grasp of realities rivalled by few of his contemporaries.

Prof. Showtell, in fact, must be ranked among the greatest of living Canadians. The pity is that, like many another, he is an exile from the land his talents could serve so well.

Propose Second Arctic Trip

Aviators Anxious To Reach Europe By Greenland Route

A letter has been received in Cochrane, Ontario, from Bert Hassells and his partner, Crammer, stating that it is their intention to make another attempt this year to establish a serial mail route from Cochrane to Stockholm, Sweden, via Greenland. These are from Rockford, Ill., fliers who made an unsuccessful attempt to reach Europe by a northern route last year, the attempt ending when they were forced to make a landing at Greenland. This year, according to the fliers, they will attempt the trip in 500-mile relays, with refueling stations at Sault Ste. Marie, Cochrane and two located at intervals between Cochrane and Greenland. They have asked that the runway which they made use of last year in taking off from Cochrane be kept open in preparation for a start this spring.

Sugar Beets a Paying Crop

Sugar beets proved the best-paying crop in the Taber-Barnwell irrigation district last year, returning an average of \$69.59 per acre. Alfalfa came second, with \$25.85 per acre, and wheat third, with \$23.27. The average production per acre in the project was worth \$28.97.

Pupils in Scotland have to get through about three times as many books in the school year as London school children.

The total acreage under pasture in Canada in 1928 was 9,928,943 acres.

Minard's Liniment for Coughs and Colds.

SUNDAY SCHOOL LESSON

MARCH 24

STEWARDSHIP AND MISSIONS

Golden Text: "It is required in stewards, that a man be found faithful."—Corinthians 4:2.

Lesson: Genesis 12:1-3; Deuteronomy 8:17; 1st John 3:1-10; Malachi 3:7-12; Matthew 23:13-20; Acts 13:8-12; 1st Peter 2:11-12; Romans 11:14-16; 1st Corinthians 12:1-3; 2nd Corinthians 4:1-15; 9:1-15.

Devotional Reading: Psalm 91:1-8.

Explanations and Comments

Stewardship In Regard To Missions, Acts 1:8.—The apostles met Jesus on the Mount of Olives, and there they asked Him if at that time He would restore the Kingdom to Israel. Their question shows how well-nigh impossible it still was for the apostles to rid themselves of the common Messianic expectation of the Jews, that the Christ would rule over a Jewish nation independent of Rome and herself dominant, politically and religiously, over the other nations of the earth. "It needed the Pentecostal outpouring of the Holy Spirit to teach the apostles that Christ's Kingdom is not of this world."

"It is not for you to know the times, seasons, which the Father hath set within His own authority," was the answer of Jesus. "It is impossible that He will restore the Kingdom to Israel; not, however, to Israel after the flesh, as the apostles imagined but to the Israel of God, i.e., to Christ's believers of every nation, by making Christianity the dominant religion."

"O God, I pray Thee for the childlike heart."

That can enjoy—all vexing things apart.

The beauties Thou in heaven and earth dost show.

Nor fret myself with things I do not know."—Babcock.

And then Jesus promised power through the coming of the Holy Spirit, and gave His great commission. They were to be His witnesses both in Jerusalem and in all Judea and Samaria, and unto the uttermost part of the earth. Some one has called these four missionary ones particular missions, state missions, home missions, and foreign missions. The Acts records the story of how the apostles carried out the commission. "The uttermost part of the earth" is represented by Rome, the capital of the Empire, the place where, as Ignatius said, "All met from every quarter."

"This message always hurts me who think of the vast tract of earth that have never heard the name of Christ."—G. Campbell Morgan.

Change Bread To Cake

Here's the Magic Recipe

Cut slices of day-old white bread 3/4 inch thick. Trim off crusts. Cut each slice into strips 1/2 inch wide by 2 inches long.

Spread these strips on all sides with Eagle Brand Sweetened Condensed Milk, covering bread well.

Roll strips in dry shredded coconut, broken very fine. Place in pan and brown very delicately on all sides under low gas flame, or toast on a fork over coals.

Delicious little coconut cakes result—made from bread. Taste just like Angel Food cake.

Try them! This and dozens of other magic recipes are found in the Eagle Brand Cook Book "New Magic in the Kitchen." Write for your free copy to The Borden Co., Dept. BW, 140 St. Paul St., Montreal, mentioning this paper.

Hard and sort corns both yield to Holman's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

Western Progress

The thriving city of Regina established a notable record in 1928, in attracting new industries. During the last past year, 12 important industrial concerns located in Regina. They are said to have expended about \$5,000,000 in sites, buildings and equipment, and they will employ well on to 2,000 men. Housing accommodation was built last year for 1,000 families, and building has not yet caught up to the demand.

A cast off railroad locomotive with its wheels removed, heats a Norwich Connecticut passenger station. It performs efficiently, supplying heat to the train shed, station and cars in the yard as required.

To Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has been used for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acid, and at once the symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any drugstore.

CHAPTER XVII.—Continued

From up the mountainside came a drumming roar and the rending crash of trees as the fire undermined their roots. Sparks from burning tree-tops crowned the fire-break and started other fires. To combat these, water had to be carried up the steep hillside in pails. Andy was among those delegated to this arduous task. For hours he staggered from stream to hill and back again with a brimming pail in either hand. Scorching by sun and fire, the perspiration streaming down his face and stinging his eyes, the little hero stuck gamely to his task.

"I red on this job as a cook," he grumbled, "not as a blinkin' water-spout. Strike me pink, if the water I've carried today was sprinkled in 'ell the devil'd be out of a job. Oh, well," he added resignedly as he lifted his pails and turned to ascend the hill, "as Methusalem said, 'Every little bit 'elps!' These two buckets make exactly four million, two hundred and six gallons that I've carried this day." At this instant his foot caught in a root to send him sprawling on his face rolling down the mossy hillside, the pails clattering after him. As he lay where he had fallen, flat on his back, with arms outstretched, "There," he soliloquized, "that was the wind of straw that broke the elephant's back. To 'ell with the fire. Let the blighter burn."

Wilkinson came wearily down the hill. His face was blackened and blistered, his hat gone, and his shirt a network from holes burned through the cloth by flying sparks. He sprawled on all fours by the stream, drank sparingly, then plunged his face in the cooling waters.

"Ello, Wilkie!" shouted Andy, "ow would you like to 'ave a cold bottle of beer?"

Wilkinson seized the stone threateningly and glared at his tormentor. "Men have been killed for less," he growled huskily.

"I 'zy, Wilkie," grinned Andy, "these Forestry jobs are a snap. Do you 'ave the nerve to collect a salary?"

The district ranger was too tired for speech. His swollen face puckered in a snarl and he passed on up the hill, and Andy came stiffly to his feet and resumed his never-ending task.

Connie brought reports that the fire was being held on the north and east. The fire-break on the south held, but spot fires were kept in check only by the almost superhuman efforts of the fire-fighters.

Forest fire reach the peak of their intensity while the sun is hottest. With darkness the wind subsides.

Simple Precautions Against FLU Sore Throat — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower, then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline" (this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease-breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

Andy's parched lips and bathed his hot face as he lay panting on the ground. He sat up with an effort and looked about him. "Where's Connie?" he asked. But Connie had stolen quietly from the scene.

By mid-afternoon the main body of the fire was apparently under control, but the persistent spot-fires kept the entire crew engaged. A huge cottonwood, standing just within the fire-breaks, was the chief offender. Sparks from its lofty blazing top were floated by the breeze to land on the dry ground, starting innumerable fires.

"That tree will have to come down or we will be fighting spot fires indefinitely," said Wilkinson.

Silence fell. Everyone of those lumber-jacks knew the danger attached to the falling of a rotten, blazed tree. In sound timber the skilled "valley" can cut the scar and drive the falling-wedge to lay the tree within six inches of the desired spot. With a hollow tree the task is more difficult, as in the soft, decayed pulp the wedge may not provide sufficient leverage to moving the enormous weight, and the tree may crash from any angle.

Men working at the butt of a burning tree, too, are exposed to the risk of branches. Even a small, huddling from the dizzy height of cottonwood or fir, will break a man's limbs.

Wilkinson picked up a falling saw. "Who will go with me?" he called.

Gillie stepped forward with wedge and hammer.

"Nothin' doin'," said little Blackie. "Wilkinson here has a wife and kid, and Jack has brains enough to be out boss. Me and Hoop-la ain't got neither, we're just a couple of roughnecks. Whaddya you say, Hoop-la?"

"Ye betcha," came vigorously from Blackie's pal.

Two men went sent with them to assist in clearing a space at the foot of the big tree. A few minutes later the twang of the cross-cut, mingled with Blackie's happy song, sounded above the crackling of the fire.

Wilkinson pointed to the southern sky, where heavy nimbus clouds were massing. "At last! The blessed rain is coming!" he cried in a voice of thankfulness.

A stronger gust swept through the valley to send a surge of flame from the giant cottonwood's spemon branches. There was a sharp cry of warning as a limb broke off by a splinter-crash and came roaring to the ground, sending up a swirl of dust.

"A stranded cry of pain, and unlike in its intensity, cut the air. "Blackie!" he screamed. Hoop-la!

Blackie lay on his face, his clothing afire, pinned down by the shattering limb. With a heave of power, full shoulders, Hoop-la flung the crushing weight aside, and his big hands quickly smothered the fire in the clothing of his fallen comrade. Gently he raised the stricken man in his arms and bore him beyond the range of the fire.

"Blackie! Oh, Blackie! are you all right?" he questioned fearfully as he looked down at the quiet face that held the grey pallor of death.

The doctor and his stretcher, sharply ordered Wilkinson.

(To Be Continued.)

Canada's Chinese Population

Last Registration Gave Total Number As 55,700

According to reports tabled in the House of Commons, three Chinese immigrants were admitted to Canada during the fiscal year 1927-28, two of whom were women. Two students coming to attend Canadian universities were admitted as non-immigrants. Eleven Chinese were deported during the year.

The registration carried on during 1923-24 shows a Chinese population in Canada of approximately 55,700. Of this number, 48,305 were males, 1,202 females, and 6,099 children under 18 years of age. Of the total British Columbia had 31,116 Chinese residents.

The number of Japanese entering Canada in 1927 was 512, and in 1928-35. Of the total for two years, 275 were adult males, 537 adult females, and 216 children under 18 years of age.

Dump Valves For Passengers

They have long had dump valves in airplanes for gasoline, but now they have got one for passengers. Floyd Smith demonstrated the device at Mercer airport, tilting the passenger seat with a lever and letting a 150-pound dummy passenger hurtle down from a height of 1,500 feet. The dummy's parachute opened in one and four-fifths second and the dummy floated safely to earth.

It is estimated that only 54 per cent. of Florida's white population is foreign born.

Up-To-Date Airport

Municipal Field At Oakland, California, Has Every Modern Convenience

How many people realize that parking space for airplanes is sold in the same way as parking space for automobiles, in the downtown areas of big cities. To take Oakland Municipal Airport at Oakland, California, as an example. Over night ground rental costs one dollar per plane. Hunger space less than 1,000 square feet costs two dollars a day or forty dollars a month, while quotations for larger space up to an area over 2,000 square feet are charged at four dollars a day or seventy-five dollars a month.

One can get a plane washed just as a car is washed for \$1.25 an hour. Mechanics are available at this airport for two dollars an hour during regular working hours and three dollars an hour during other periods. If you arrived at this airport by plane and wanted to stay there during the night, you can get a bunk for a dollar a night or fifteen dollars a month. There are at this airport conveniences found at few other airports and that of sleeping quarters is one of them.

Oakland airport which is operated in connection with the seaport of the city, has had a speed boat channel from San Leandro Bay, an arm of San Francisco Bay, dredged direct to hangars. This channel is 150 feet wide, and 16 feet deep, and allows for the landing of seaplanes at the same field that serves land planes. It is a matter of 11 miles from the seaplane landing to the San Francisco ferry port office.

A restaurant to accommodate 150 people was recently completed at the field. There is a coffee shop, a dining room with full view of the field and a banquet room housed in this building, in addition to the usual news stand, tobacco shop, soda fountain and souvenir booth, which one is accustomed to find at any railway station.

Western Horse Shipments

Twenty-five Thousand Sent To Eastern Canada Last Year

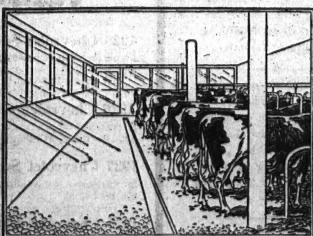

Western horses to the number of 25,000 were shipped from the prairies to Eastern Canada last year. Most of these horses came from Alberta and Saskatchewan, and were disposed of principally in Ontario and Quebec at Prince Edward Island. The shipments varied from heavy draught animals to light range stock and about 5 per cent. were unbroken. A carload of these unbroken range horses of Percheron and Belgian breeds, was shipped into Paisley, Ont., recently and sold at public auction, realizing an average price of \$71 for the 21 head.

Traveller (at country railway station): "Do the fast trains ever stop here?"

Porter: "Yes, we had a smash-up here once."

WINDOLITE

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold, will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but is one width of 36 inches only. A square yard of WINDOLITE weighs about 14 one, while a square yard of glass of ordinary thickness, weighs about 150 lbs. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, F.o.b., Toronto.

Use WINDOLITE and let

-take it! It's Safe

The nurse tells you to take Aspirin because she knows that it is safe. Doctors have told her so. It has no effect on the heart, so take it to stop a headache or check a cold. For almost instant relief of neuralgia, neuritis, rheumatism, even lumbago. But be sure it's Bayer—the genuine Aspirin. At drugists, with proven directions for its many uses.

Aspirin is a Trademark Registered in Canada

ASPIRIN

Little Helps For This Week

"In God have I put my trust; I will not be afraid."—Psalm lvi. 4.

Oh, heart of mine, we shouldn't worry so!

What we've missed of calm we couldn't

Have, you know!

What we've met of stormy pain, And of sorrow's driving rain,

We can better meet again, If it blow.

We have erred in that dark hour

When our fears fell with the shadow

Alone.

Were not ahine and shadow bent, As the gracious Master meant?

Let us temper our content

With His own.

For we know not every morrow

Can be sad;

So, forgetting all the sorrow

We have had,

Let us fold away our fears,

And put by our foolish tears,

And through all the coming years,

Just be glad.

—James Whitcomb Reilly

God writes straight on crooked lines.—Spanish Proverb.

Taken Without Question

There are times when we question the pronouncements of the learned, but one of the things we have decided not to prove for ourselves is the recent statement of a prominent naturalist that lions are near-extinct.

Shirts are being worn by constantly increasing numbers of Chinese.

"Robot" For Nine Years

Expert Chess Player Fooled Patrons Of New York Museum

The secret of perhaps the strangest "robot" ever exhibited in America has been revealed with the death of Peter J. Hill. Thirty years ago in New York city, the proprietors of a dime museum astonished their customers with an "automaton chess player." Thousands, including many internationally known players, tried in vain to defeat the "mechanical man." The robot in reality was Hill, masked and disguised. An expert chess player, he sat in the museum for nine years, shifting the pawns on board with jerky, mechanical movements, maintaining silence and keeping his secret from those with whom he played.

Whales have the largest brains of all mammals, the largest on record weighing 7,000 grams.

CRUMBLY TEETH

Help your children to have sturdy bodies, sound bones and strong teeth. Give them

Scott's Emulsion

rich in vitamins. It serves the needs of childhood equally as well as it does grown people.

CANADA'S MINING INDUSTRY

The variety of Canada's mineral deposits, the large scale on which operations are conducted, and the great extent of its mining lands, make it evident that the Dominion is a country of great mineral possibilities, that it is undergoing rapid development, and that it offers an attractive field for exploration and development companies.

AGED TEACHERS TO
RECEIVE CARE OF GOVT.

Hector Lang, Liberal, Medicine Hat, topped off a successful session, his first in the legislature, on Thursday of last week, when the house gave unanimous endorsement to his redrafted resolution calling for school teachers of the province who, by reason either of ill health or old age, have found it impossible to carry on in their profession.

The resolution as redrafted, reads as follows: "That this Assembly is of the opinion that the Minister of Education make inquiry into the cases of teachers who, having rendered long service in the profession, are unable to continue on account of ill health or old age and should be authorized to make such provisions with such teachers as in his opinion, after inquiry, may appear fair, and reasonable."

There was no discussion on this resolution.

During the debate on the original motion on Tuesday, it was pointed out the government at present, was not in a position to commit itself to a definite pension scheme, but as Premier J. E. Brownlee said, given to genuine needy cases. Therefore, the premier and Mr. Lang conferred and the amended motion was the result of the meeting.

ALBERTA MUSKRATS
SHIPPED TO ENGLAND

Ten pair of live muskrats were shipped from Edmonton during the past week to England. This shipment, the first of its kind to be made from western Canada, will form the nucleus of breeding stock for a large English fur raising concern. The shipment was made by A. C. McFadyen, who states that if this trial proves successful, several thousand more rats will be shipped in the next few months. Further evidence of the rapid growth of this industry is given by orders for breeding stock which Mr. McFadyen has recently received from Czechoslovakia.

STOCK OF GAME BIRDS
TO BE INCREASED

Some 2000 Chinese ring-necked pheasants, 600 Mongolian pheasants and 3000 pheasant eggs for hatching will be brought into Alberta this year, states C. A. Hayden, president of the Provincial Fish and Game Association. It is reported that the pheasants placed in several districts in the province last season have wintered very well, and it is hoped that through the activities of the association and a number of local bodies, the supply of these desirable game birds will be greatly increased within the next few years.

The coldest night of the winter in Nova Scotia was on March the 11th, when the thermometer dropped to 21 below zero.

COWLEY HAPPENINGS

A concert will be held in the I.O.O.F. hall here on Friday night of this week, under the auspices of the Ladies' Auxiliary.

Mrs. Cowin, who has not been well for some time, has gone to Calgary, where she will consult a specialist in regard to her health.

The Ladies' A.D. of the United church will hold an apron sale and tea at the home of Mrs. A. G. Swart on Saturday at 2:30 p.m.

A very successful dance was held under the auspices of the Cowley Women's Institute at the home of Mrs. Geo. Porter on Friday night last. In spite of bad roads, a good crowd was present. The music, which was furnished free by several different talented musicians, was well past the mark in snappiness and pep, as measure after measure was tripped by the fantastic foe to many fox trots, jigs, reels and other dances, while gay chatter and sunny smiles brightened the faces of the lads and lassies. Refreshments were served at midnight, after which the dance continued on till three o'clock in the morning. Around \$24 was realized, which will go towards the Cowley cemetery fund.

INSTITUTE PUBLIC LIBRARY

The Library is now open for use by the public. Every citizen of Blairmore is entitled to become a member on payment of \$1.00 annual membership fee. The number joining during the first week has been very gratifying. The success of the Library is assured.

The number of volumes on the shelves is 1081. We acknowledge eight volumes from Mr. Gillis and three volumes of the War Supplement of the Encyclopedia Britannica from Mr. Kelly.

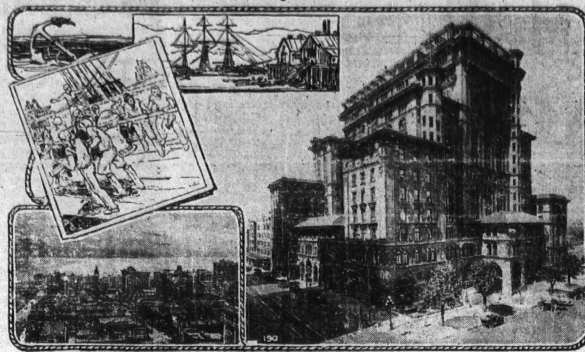

5000 FACTS ABOUT CANADA

The 1929 edition of that popular annual, "5000 Facts About Canada," edited by Frank Yeigh, the well-known Canadian author and publicist, is now off the press and contains a wealth of material that presents the stirring story of our national progress in crisp, concrete form. Many new features mark this issue, such as the striking expansion during the ten years since the armistice, as well as the remarkable advance made in the last twelve-month period of "Canada's Best Year." The booklet "sells Canada" most effectively, and is widely distributed for that purpose, while it is invaluable to any Canadian who wishes to know his own country. The 50 chapters of contents tell the all-Dominion story in a nutshell. Copies may be had at 25 cents from leading newsmen or from the Canadian Facts Publishing Co., 688 Huron Street, Toronto.

A serious accident occurred in the Frank Slide yesterday afternoon, when one of the men employed with the C.P.R. steam shovel gang was crushed between rocks. He was rushed to the Oliver hospital here, where all possible is being done for him.

The Elks have made arrangements with Mr. C. H. Lewis to produce the musical comedy, "The Beauty Shop," in Blairmore about the middle of April. Mr. Lewis has presented this comedy with unqualified success in all the principal cities in western Canada during the past couple of years, carries special scenery effects and costumes for the purpose and uses all local talent, with a cast of fifty to seventy-five, comprising in the neighborhood of fifteen principals and several chorus groups and including youths as well as adults. An invitation is extended to all who would like to join with the Elks in making up this cast to be present at the first rehearsal in the Elks' Hall on Wednesday night next, March 27th, at 7:30, when Mr. Lewis will give a synopsis of the play and will start rehearsals.

Now A Sea Music Festival

The Sea Music Festival, January 25-26, which staged in this, the Hotel Vancouver, inset is a general view of the Pacific Coast City as viewed from the roof garden of the hotel.

The idea of a Music Festival is not new to Vancouver, but the Festival devoted entirely to sea music, which is being organized to take place in this city next January, is the first of its kind, and as such is attracting widespread attention. There is a vast amount of music connected with the sea, dating back as far as the Song of Miriam, which tradition says was sung to the Children of Israel, on the bank of the Red Sea. Yet somehow no one till now had thought of devoting a whole series of concerts to this subject, and it is a tribute to the growing importance of Vancouver as a world port that the Canadian Pacific Railway, which is organizing this Festival, should have chosen to locate it here.

It is less than two years ago since the Canadian Pacific experimented with its first Music Festival, which was held at Quebec and dealt with the folk songs preserved by the French-Canadian whose forefathers brought these old songs with them to this country three hundred years ago. That experiment met with such favor that it was repeated on a still more ambitious scale last Spring. Both these Festivals drew many visitors to the city from other parts of Canada and from the United States, the Governor-General showing his interest by going down to attend the celebration by special train. They have had the effect of creating a better understanding of the French-Canadian people, and the lovely old melodies which had hitherto been known mostly in the backwoods of Quebec, are now being sung all over Canada. The leading musicians of this country are realizing that in these melodies Canada has a priceless heritage.

Following on the Quebec experiment, a Scottish Musical Festival was staged at Banff, in connection with the Highland Gathering. This made such an appeal to the national pride of the Scots that the idea was repeated at the second Festival last September.

At Winnipeg, the Canadian Pacific selected another phase of popular music available in this country, namely, the folk songs of the settlers of Continental European extraction, who are now generally classified as New Canadians. Fifteen racial groups participated, and the demonstrations of folk songs and folk dances was a revelation to the Anglo-Canadian. The practical result of this festival is the projected general folk museum, for which the City of Winnipeg has declared its readiness to provide the land on which the various racial groups have offered to build typical peasant cottages in which their handicrafts may be permanently exhibited. Such a Museum would undoubtedly provide Winnipeg with the tourist attraction which at present is admittedly lacking, and would also be the source of everlasting interest and pride to every thoughtful citizen of Canada.

What will result from the forthcoming Festival at Vancouver remains to be seen, but there is every evidence that it will be well worth attending. A galaxy of concert stars will be supported by a number of local choirs and by the Scottish Symphony Orchestra. John Goss, Jeanne Duseau, Paul Bal, and the Hart House Quartet, represent but a few of the names that should attract the crowds. Most interesting of all, perhaps, will be the Sea Chanties which F. H. Wallace, once a Captain on a Buenos Aires boat and author of "Wooden Ships and Iron Men" will stage. Captain Wallace has collected chantes from sailors on Canadian sailing ships, and can thus give a truly Canadian flavor to those fine old Sea Songs. The Festival, which will last four days, will be under the same direction as the Yuletide Festival which will centre around the Empress Hotel at Victoria a month earlier.

Nome Hero, Derby Winner

Leonard Sepella, hero of the famous race to Nome, is congratulated on winning the Seventh Eastern International Dog Sled Derby at Quebec. He covered 123 miles in eleven hours, six and a half minutes with his sturdy team of Siberian huskies.

Dog sled derby records were broken and new ones established during the three days of the race. Dupuis, who finished second, made a world's record when he completed the first lap of 41 miles in 3 hours, 22 minutes, 42 seconds. Of the nine who finished the three laps, only two took as long as the first Derby winner at Quebec in 1923, demonstrating that harder and speedier dogs have been developed for sled work since then.

HISTORICAL

February 1919 had no new moon.

Year 1888 was called the Hungry Year.

August 30, 1855, Soldiers' Riot at Halifax.

October 2, 1910, Amherst was hit by a \$30,000 fire.

February 17, 1919, Sir Wilfred Laurier died at Ottawa.

Prince John, youngest son of King George, died January 18, 1919.

Year 1798, coal was first discovered in Pictou County.

June 17, 1745, Louisbourg taken by Pepperal and Warren.

December 7, 1827, steam power first introduced at Albion Mines.

April 17, 1868, D'Arcy Magee was murdered at Ottawa.

December 18, 1862, slavery was abolished in the United States.

October 23, 1826, H.M.S. Valerian lost in Bermuda gale. 100 men lost.

March 17, 1866, proclamation issued. Call to arms for Fenian Raid.

February 11, 1884, in a terrible accident at Vale colliery, 13 men were killed.

January 27, 1854, the first sod on railway from Halifax to Truro was lifted.

December 15, 1885, the first passenger train arrived in Truro from Halifax.

October 30, 1926, in a heavy storm in Havana, 30 persons were killed and 300 injured.

June, 1899, W. Murray, aged 101 years, walked from West Branch River John to Pictou.

November 7, 1872, wreck of ship Maggie P. S. Lord at Old Loading ground, Pictou County.

June 1, 1866, invasion of Canada by Fenians. June 8, flight of Fenians across the border.

February 1920 had five Sundays. Same won't happen again until the year 1948.

July 1, 1836, first railway in Canada opened from La Prairie to St. John's, Quebec.

February 15, 1924, a heavy thunder and lightning storm passed over Stellarton at noon.

April 25, 1908, in the Quebec landslide at Notre Dame de Salette, 34 lives were lost.

December 27, 1749, first Masonic sermon was preached in Boston by Rev. Charles Brockwell.

March 4, 1908, 100 school children were burnt to death in the Cleveland, Ohio, school building.

1839, the Albion Mine railway opened, the first locomotive in British America ran upon it.

April 12, 1908, in a big fire at Chelsea, Mass., four lives were lost and 50 injured. Loss \$10,000,000.

July 11, 1912, the town of Point Pupper, opposite Mulgrave, was practically wiped out by fire.

In 1829, the G.M.A. built a railway from Albion Mines to the chutes opposite Riverside cemetery.

August 29, 1907, the Quebec bridge, while being raised into position, collapsed and killed 65 people.

February 26, 1907, a school building at Montreal was destroyed by fire. One teacher and 16 pupils lost their lives.

their lives.

April 18, 1906, was the date of the San Francisco earthquake, in which was great loss of life and property.

July 13, 1912, Arthur Hayman fell down Allan Shaft, Stellarton, and was instantly killed. His fall 462 feet.

February month, 1905, the stormiest for 33 years. I. C. Railway tied up for seven days. Snow six feet deep in the woods.

May 25, 1870, Fenians crossed the frontier at Trout River, Quebec, but were driven back by the volunteers.

In 1972, General Mining Association sold all their rights in the mines at Pictou to The Halifax Co., Sir George Eliott, chairman.

September 18, 1926 in a tornado at Miami, Florida, there was a great loss of life and property, 400 were killed and 5000 injured.

July 11, 1910, Cambellton. N. B. was wiped out of existence by fire. Estimated loss \$2,500,000. Only twenty-seven buildings left standing.

April 15, 1912, steamer Titanic was lost 600 miles east of Halifax. Of 3000 aboard, 1601 were drowned.

Place of accident: Grand Banks of Newfoundland. Cause: Striking iceberg.

March 17, 1908, a C.P.R. engine crashes into Montreal depot, without engineer or fireman. Five dead and 23 injured. Cause: Washout plug blew from locomotive. Engineer and fireman compelled to jump, from escaping steam.

November 30, 1863, the first sod of Pictou Railway was turned. The pick was applied by Mrs. D. Fraser (Acadia Farm) and duly lifted with the spade into the barrow by Mrs. Scott, Albion Mines, then duly hauled off and deposited after the most approved fashion by Mrs. MacDonald, wife of the Railway Commissioner, later Chief Justice.

First Small Son: "I think there is company downstairs."

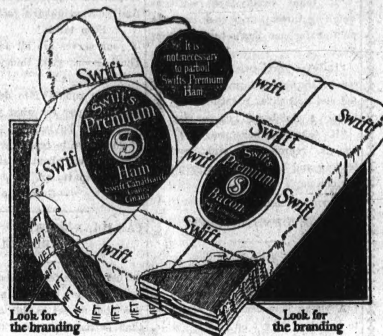

His Brother: "Why?"

P.S.S.: "I just heard mamma laugh at one of papa's jokes."

Patient (gaspingly): "I seem a little better, doctor, but I'm still short of breath."

Doctor: "Have patience and we'll stop that."

Of course you'll want Swift's Premium Ham or Bacon for Easter

Premium Hams retain their full flavor when served, because they require no parboiling before broiling or frying.

Insist on Premium when ordering. The splendid flavor and general high qualities will make it worth your while.

Swift dealers everywhere have strengthened their stocks of Premium Hams and Bacon in anticipation of the big Easter demand.

They are ready to take care of your order.

We suggest that you arrange for your Easter ham or bacon at once, so that you may be sure of getting Premium.

Make Sure of Premium for Easter

TRANS-CANADA TO OPERATE FASTER SERVICE

The Trans-Canada will operate between Montreal, Toronto and Vancouver, commencing May 12th, to September 28th, and will be one hour faster westbound and one hour and thirty minutes faster eastbound making the trip Montreal to Vancouver in 88 hours and 45 minutes, and from Toronto to Vancouver in 84 hours and 30 minutes; from Vancouver to Montreal in 87 hours, and from Vancouver to Toronto in 82 hours and 10 minutes.

This train will have in its equipment: Women's lounge and bath, men's bath, smoking room buffet with soda fountain, observation lounge, salarion, valet service, also the open observation between Calgary and Kamloops.

The Mountaineer, which is a much smaller train, will operate between Chicago and Vancouver, commencing June 10th, to September 7th, westbound, and eastbound from June 14 to September 9. The equipment of this train will be the same as the Trans-Canada, and will make the trip Chicago to Vancouver in 72 hours and 45 minutes and from Vancouver to Chicago in 72 hours and 15 minutes. These trains consist of all standard sleeping cars, having no day coaches.

CANADA GEESE INCREASE WHEN PROTECTED

A very rapid increase has taken place in the number of Canada geese in the Vaseaux Lake bird sanctuary, British Columbia, since this area was set aside for this purpose in 1923.

In one part of the reserve, an island in the lake where only three geese nested in 1919, thirty-five nests were counted in 1928. Throughout the whole sanctuary the number of nests counted in the latter year was fifty-five, whereas in 1923 the number of incubating birds was very small indeed. During last summer over four hundred geese were counted at one time.

There's no profit in debating a grapefruit. The longer you debate, the more your eyes and nose get the benefit.

Following an analysis of the air in Pictou, the school at Fernie, the board decided to purchase a humidifier at a cost of \$198.

STILL MORE QUALITY AT LOWER PRICE

THE sixty-two horse-power engine of the finer Oldsmobile is built to rigid standards of precision . . . and an harmonious relationship between all working parts is definitely established.

The lines of the graceful Fisher Bodies are designed to blend and harmonize; resulting in beauty, at once pleasing and authentic.

Coupled with this balanced design of Oldsmobile, are such truly fine-car characteristics as pressure-lubricated piston-pins, GMR high-compression cylinder-head, dynamically and statically-balanced crankshaft, thermostatic charging, fuel pump, controlled cooling, rubber engine mountings, silenced chassis and interior . . . and comfort features such as Lovejoy Shock Absorbers, adjustable driver's seat and adjustable steering column.

Yes, this finer Oldsmobile is now being offered at still lower prices.

An Outstanding Example of United Effort

CHEVROLET FISHER BODY GENERAL MOTORS Combined to produce this Car

NO single organization could have produced such a car as this Outstanding Chevrolet . . . or offered it at such a sensationally low price.

It is an outstanding example of the results of united effort.

The vast resources of Chevrolet, Fisher Body and General Motors were brought to bear on the problem of bringing this cylinder quality, performance and prestige into the field of the low-priced car.

And the result is the Outstanding Chevrolet of Chevrolet History . . . a car of beauty and engineering excellence . . . a Six, in the price range of the four.

You do not know car values until you have inspected this amazing Chevrolet. C. 11-1-282

IS IT A FAIR EXCHANGE?

A farmer recently sent to a local paper in New York State his translation of the cost of construction at current wages, into food at the price the farmer gets. The gist of the letter is as follows:

"It takes 63 1/2 dozen or 762 eggs to pay a plasterer for one day of eight hours work.

"It takes 17 1/2 bushels of corn or a year's receipts from half an acre to pay a bricklayer one day.

"It takes twenty-three chickens weighing three pounds each to pay a painter for one day's work in New York.

"It takes forty-two pounds of butter, or the output from fourteen cows, fed and milked for twenty-four hours, to pay a plumber \$14.00 per day.

"It takes a hog weighing 175 pounds, representing eight months feeding and care, to pay a carpenter for one day's work."

COMPOUND INTEREST

All the way from New York comes a new story concerning John D. Rockefeller, the multi-millionaire.

A young man asked his advice as to how best to get on in the world.

"Work hard and set yourself to buy a gold watch," was the reply.

"Yes," queried the listener; "and when I've bought the gold watch?"

"You don't buy the gold watch," replied Mr. Rockefeller. "You buy a gun-metal one and start all over again for a motor car."

"And when I've got the money for a motor car?"

"Well you remember the watch, if you're not a fool, and go on walking to business,"—Edmonton Journal.

Harry Scott, of the Calgary Albertan, referred a hockey game in the Crows' Nest Pass a couple of years ago, and two others between High River and Blaimore recently. You might make note of this fact, please, for as far as the Pass is concerned, Harry is not likely to again have the opportunity of acting in a similar capacity here.

WHAT TO DO

If you're feelin' tired and blue, And you don't know what to do, Do nothing.

If you're appetite's not right, And your waistband's gettin' tight, Stop stuffin'.

If your plans are awry, And your feelin' you want to cry, Go fishin'.

If you can't see far ahead, And wish that you were dead, Stop wishin'.

If you know you talk too much, And your neighbor's feelin' touch, Stop talkin'.

If your nerves are all askew, There is one good thing to do, Go walkin'.

If you're runnin' into debt, And can't pay for what you get, Stop buyin'.

If you'd like to reach the top, And are just about to stop, Keep tryin'.

—Greenville Kleiser.

CANADIAN ROCKIES

ARE WELL KNOWN

There is one feature about the Canadian Rockies that has not been appreciated as yet in this country, and that is the reputation these mountain ranges have with the most experienced mountain climbers of the world. It will surprise some to learn that many parts of the Rocky mountains are exceedingly well known in Europe and in the United States, and that men who have for years spent their holidays in the Alps are now coming to Canada year by year.

Here and There

(219) Boys at Red Deer, Alberta, earned Christmas pocket money by trapping. They brought in nearly 400 weasels in less than a fortnight, and also coyotes, rabbit, squirrel and cat skins.

Further experiments with superphosphate from the smelter at Trail, B.C., will be conducted in 1929 by the Alberta Department of Agriculture in conjunction with the Dominion Experimental Farms and C. P. experimental farms. An abundant quantity of this fertilizer will be available to meet demands.

Upwards of four millions of dollars will be expended this season in effecting alienation of the Palatine Hotel at Calgary, Alberta, and the Empress Hotel at Victoria, British Columbia. E. W. Beatty, chairman and president of the Canadian Pacific Railway has just announced. Four additional floors will be added to the former and an entirely new wing will be extended from the latter, bringing these two famous hosteleries even more up to date.

A Negro preacher walked into the office of a Southern newspaper and said: "Misto Editor, they is forty-three of my congregation which subscribe to yo' paper. Do what entitle me to have a church notice in yo' Sunday issue?" "Sit down and write," said the editor. "I thank you." And this is the notice the minister wrote: "Mount Zion Baptist Church, the Rev. John Walker, pastor. Preaching morning and evening. In the promulgation of the gospel, three books are necessary: The Bible, the hymn book, and the pocketbook. Come to-morrow and bring all three."

Twenty head of holstein cattle from Alberta pure bred herds have arrived at Vancouver over Canadian Pacific Railway lines for shipment to Japan. These cattle were collected for a Japanese buyer by deputy minister of agriculture Craig. Quite a few such shipments have passed through this port recently. The purchase of the stock for Japan was made through the Alberta government and the cattle were selected from various herds in the province. Several of the animals or their immediate ancestors have records of 20,000 pounds of milk per year and all of them are from high producing dams.

A monster black bear weighing over 400 pounds that stalked upright through the woods seeking what or whom it might devour and which had no forepaws, has just been trapped in New Brunswick, according to Dave Ogilvy, well known guide and outfitter. The beast used to rifle all the garbage cans, and refuse heaps in the neighbourhood of Plaster Rock, on the line of the C. P. R., and was caught by means of a trap hidden under dead leaves and some old paint tins. Examination of the body showed that its forepaws were crippled, either by deformity at birth or by an accident, and that it must have walked about on its hind feet. Only tracks of the rear paws had been found and considered as a mistake. It is said that the bear was shot by our Traction and Jack Ogilvy caught the bear, whose skin measured over seven feet in length.

Here and There

227 To meet increased trade and passenger traffic on the waters of the Pacific coast, two new vessels of the "Finnish" type for night service between Vancouver and Victoria have been ordered by the Canadian Pacific Railway. It has been announced by Captain C. D. Neroutas, manager of the British Columbia Coast Steamship Services.

A new carrier and telephone system for Canadian Pacific purposes will shortly be in operation across Canada. It was stated recently in Winnipeg by Mr. John McMillan, general manager of the Canadian Pacific Railway, who was on a tour of the west. This greatly supplements the facilities already used.

Since the world war the Canadian Pacific has constructed 1,100 miles of new railway track, most of which opened up new territories and developed new areas of country for settlement and industrial activity.

An average of twenty-seven pounds of butter is consumed each year by every man, woman, and child in Canada; it has been discovered by federal statisticians, making the Dominion the largest consumer of butter in the world. The per capita consumption is ten pounds greater than that of the United States. No light is thrown upon the number of slices of bread buttered by hungry Canadians.

The sweetest news received in Canada for some time was the report from the British Industries Fair in London that twenty minutes after its opening an order had been placed for \$50,000 worth of honey.

Santa Claus must be establishing a stable somewhere in this country. It is reported that a consignment of 500 live Swedish Reindeer was recently shipped to Canada. It was the largest shipment of these animals ever to be made.

The recent announcement that a new Dominion Atlantic Railway hotel is to be built at Kentville has been received with enthusiasm, not only among commercial men but the general travelling public as well in Nova Scotia. At the same time the Dominion Atlantic Railway is the object of a good deal of favorable comment in the part it is playing in developing Nova Scotia as a tourist ground and the Annapolis Valley.

A taxidermist must be a skilled sculptor and a student of anatomy, said Mr. G. L. Pap, well known western taxidermist and sportsman who visited Montreal recently.

To give a true and life-like appearance to specimens a full-sized clay model is first constructed. From this a plaster cast is made and a paper-mache model formed in turn from this. The final shell over which the skin of the animal is carefully glued shows every feature and conformation of the animal's body.

Here and There

(259) Although Canadians have been strident about "alien" money, seems little to support the population in the recent announcement that the Canadian telephone conversationists. There are 1,259,947 telephone lines in Canada, recently published statistics disclose, allowing for a phone for every eight persons. If all the conversations that took place during the past year were placed end to end they would be heard in Mars, for every citizen had on an average of 251 conversations during 1928. Presumably this does not include wrong numbers.

One of Montreal's first big buildings that was demolished to make room for one of the latest skyscrapers downtown has appeared on an entirely new site, to the amazement of the citizens. So carefully was the building taken down that scarce a score of new stones were required to complete its reconstruction on its new lot.

Up to December 31, 1928 the Canadian Pacific had spent \$1,000,000 in construction work, land settlement, etc., nearly \$85,000,000 of its own money.

St. Charles Gordon, G.B.E., president of the Bank of Montreal, has been appointed to the board of directors of the Canadian Pacific Railway to fill the vacancy caused by the resignation of Mr. J. K. L. Ross, Senator of the Hon. F. L. Delage, also has been appointed a member of the executive committee of the board.

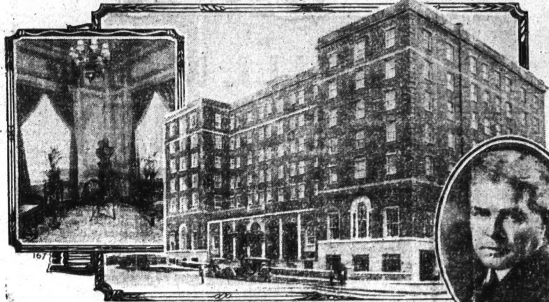

A shipment of animals that will resemble the cargo of livestock on Noah's Ark will take place shortly from Moose Jaw Wild Animal Park, when a number of bison, moose, deer, elk and other animals will be sent to the Rocky Mountain National Park at Banff, Alberta.

Everyone in Canada is worth \$2,700! That at any rate, is what government figures show. The aggregate national wealth for 1928—\$28,691,482,000—working out at that amount per person. Agriculture is the largest single item, and the western provinces come first in the highest per capita wealth of any part of the Dominion.

The Canadian Pacific Railway, in co-operation with the Manitoba Department of Agriculture, Seed Branch, Dominion Department of Agriculture, and the Manitoba Agricultural College, has provided two good seed courses and a poultry car, which is travelling through that province. There are demonstrations of tractors, plows, corn, and poultry displays, while accompanying lecturers talk on the importance of good seed and forestry, and lecture on the rearing of chickens, turkeys, etc.

A "champion pig" game was recently frustrated at Red Deer, when fines were imposed on two or three parties who wore flasks there.

Lord Nelson at Halifax Opened

Above, the Lord Nelson viewed as from the Botanical Gardens. Inset is a very charming corner of the lounge, showing the bust of Lord Nelson in the corner. Mr. E. W. Beatty was the guest of honor on the formal opening.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, in speaking as guest of honor at the banquet which marked the official opening of the Lord Nelson Hotel at Halifax, referred to the tourist attractions of Nova Scotia as being second to none on the continent. This from a well travelled man as the head of the World's Greatest Travel System was a decided appreciation. "In addition to the opportunities for sport which are unsurpassed and attract tourists from both the United States and Canada, you have the historic associations such as typified by the Frangeline legend which the Canadian Pacific and Dominion Atlantic Companies have successfully preserved and featured. It seems to us only right that the railway which came into existence as a fulfillment of one of the terms of Confederation should encourage such travel to your cities and other historic places," he said. "That travel has grown apace during the last few years and it was because of this fact among others that at the solicitation of your business men we joined with them in the building of this hotel. It is for the same reason that we are building a modern hotel with other tourist facilities at Digby."

The Lord Nelson Hotel, while operated under the direction of the Canadian Pacific Railway is the result of a sincere effort on the part of the people of Halifax who have long been working for a modern hostelry which would adequately take care of the business which offered in the city. It is situated in the heart of the city and fronting on the Botanical Gardens that have helped to make this old city famous.

Other public services such as elevator lobby, telephone room, cigar shop, etc. The mezzanine floor and ladies waiting room leads up from this, and on one side of the lobby is a short flight of steps leading up to the assembly lounge. In this room and in the adjacent assembly hall the attempt to recapture the atmosphere of two hundred years ago has been particularly successful. The chief feature is the fine fireplace over which is an excellent copy in oils of the full length portrait of Lord Nelson which was painted shortly before his death. In one corner stands a fine copy of the well known bust of this hero, and on the corner table is a splendid model of his ship "The Victory."

The end of this room opens into the assembly hall which is large enough to seat about 250 people comfortably. At one end is an ample stage with the usual dressing rooms and disappearing footlights. Leading from the other side of the lobby up a short flight of marble steps is a foyer, and beyond that the main dining room. On the floor beneath the lobby are a series of fine shops opening on the street, and here also is the spacious grill, which in keeping with the nautical flavour notable elsewhere in the building, is termed "The Ward Room."

Its woodwork is of oak and its ceiling crossed by heavy beams. It is lit by ships lanterns of brass and by candelabra, designed from binnacle lights and ships steering wheels. The furniture also is of stout oak. Other features of this floor are a barber shop, beauty shop and the usual public services.

The bedroom floors include a number of fine suites of which the Royal Suite is an outstanding example. Like the other its character of decoration is in keeping with the rest of the hotel. It consists of sitting room, dining room and two bedrooms, and its furnishings include some fine examples of early Georgian. The bathrooms and general plumbing and heating arrangements throughout are up to the most modern standard as also are all the facilities for public service.

Local and General Items

The Alberta legislature prorogued last night.

Mr. Gordon Steeves has been spending a few days in Calgary.

W. H. Chappell, of Blairmore, has been appointed a commissioner for oaths.

Some deserted wives realize they have married skippers instead of mates.

Mr. F. J. Smith, of the Hillcrest Collieries, was a Calgary visitor this week.

Some heathens develop slowly and some wear pants and get drunk and swear in just a few years.

Some of our local flappers should make good North Pole explorers—riding up and walking back.

Mr. W. Bird, of the Regina office of the West Canadian Collieries Ltd., was in town for a few days and leaves for the east tonight.

Marshall Foch, who led the allied armies to victory in the Great War, died yesterday in Paris at the age of seventy-seven years.

Two more carloads of new Chevrolats arrived this week for the Crown's Nest Pass Motors. This firm had disposed of upwards of twenty new Chevrolats so far this season.

A local school kid the other day remarked that High River must be a real note in Harry Scott's eye. If Harry was little more far-sighted he might have recognized Blairmore.

Part of the building programme of the C.P.R. this year includes a large addition to their freight sheds in Blairmore, and the work has already commenced.

The T. Eaton Company are offering through the Dominion Securities Limited, twelve million dollars' worth of five-per-cent bonds to finance the company's present program of expansion throughout Canada.

A very successful whist drive was staged last night in the Lodge Hall under the auspices of Greenhill Temple, Pythian Sisters. Gents' first prize and consolation were won by Mrs. Velprava and Mrs. Fraser, both of the smoking equipment variety.

Nineteen persons are known dead and about a score injured more or less seriously in a head-on collision between two Canadian National passenger trains near Parry Sound, Ontario, yesterday. Among the missing is a man named Robert Nelson, of Washington, D.C., who is thought to have been enroute to Cardston, Alberta.

Orpheum, Friday and Saturday, Richard Dix in "Redskin." The drama of a race clinging to traditions of their people in the face of the march of modern civilization. "Redskin" depicts the struggle of youth against the caution of age the striving for release from the chains of tribal customs. Don't miss it.

As Harry Scott sees: "That if Trail can only beat the team that represented High River 4 to 2, they haven't got much chance in the next stage of the Allan cup eliminations." The Smoke Eaters claimed that High River proved the easiest stuff to masticate they had struck this season.

In the game between High River and Blairmore at Nanton, High River's goalie was called upon to stop no less than 61 shots, as against Rhynas' 31. Similar balance of shooting applied to the two previous games, while in all three Blairmore had decidedly the edge on speed and territorial play.

Remember the annual dance and whist drive to be held in the local Lodge Hall on Wednesday night of next week, under the auspices of the Blairmore First Aid Association. A good time is assured. Music by the Altermatt orchestra. Don't forget, the draw will also take place that night.

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

SENIOR SCHOOL at 11 a.m.

JUNIOR SCHOOL at 2 p.m.

EVENING WORSHIP at 7.30 p.m.

The Pastor will continue the series of sermons on "The Great Hymns of the Cross." What hymn of the Cross has meant most to you? Call up the Pastor and let him know before Sunday.

There will be no Prayer Service on Wednesday of next week, on account of a Special Good Friday Service in the Church. Full announcement next week.

ENGLISH FOR NEW CANADIANS

The Institute of Manual Training and Home Art has just completed the second term in this class. The third term will commence on Friday of this week in the Institute Rooms, at 8 o'clock. The class is graded according to the standing of the pupils. Beginners may join now.—J. W. SMITH.

It's queer: No fellow is good enough to marry a nice girl, but just anybody is good enough to be her dad.

In the account of a wedding in a Nova Scotia paper, an error occurred. The compositor in setting up the article, used the word "lambasted" instead of "serenaded." Probably it was more opportune, anyway.

It is reported that American chewing gum is gaining a foothold in other countries. Having visited restaurants quite frequently, we are of the opinion that the stuff is also gaining a kneehold.

Chairman (again coming forward): "Ladies and gentlemen, instead of singing 'Only once more,' Miss Brown will now sing 'For ever and ever.'"

The chairman at concert: "Ladies and gentlemen, Miss Brown will sing 'Only once more.'"

Voice from back of hall: "Thank goodness."

At dinner she had a doctor on either hand, one of them remarked that they were well served, since they had a duck between them.

"Yes," she broke in, "I'm between two ducks."

Then silence fell.
Feeling too lazy to go to school, Audrey told her mother that her tummy hurt.

"But last night you said your back hurt," was her mother's reply.

"It was so dark in my room that I couldn't see where the pain was."

Lots of people pray for the poor—and let it go at that.

Blairmore's tourist campaign entertained the first camping party for the season last night.

As we go to press, we learn that Mr. Hadwell, brother of Mr. Arthur J. Hadwell, has met with an accident at Bellevue.

Quite a number of Blairmore fans left by Sunday night's train for Calgary, to witness the final between High River and Trail on Monday night.

Louis Rudnicki, son of Mr. J. F. Rudnicki, of Fernie, who expects to graduate from the University of British Columbia in April, has accepted a position with the Westinghouse people at Hamilton, Ontario.

W. A. Dempster, who for the past two years has been in charge of the local government vendor store, is being transferred to Drumheller and leaves for his new post shortly. He is being succeeded here by John Rudd, of Calgary, formerly of Blairmore.

Orpheum, Monday and Tuesday, special attraction, the world's heavyweight boxing contest between Jack Sharkey and Young W. L. Stribling; also wonderful drama, "Glorious Betsy," with Dolores Costello and Conrad Nagel—On the eve of his forced marriage to Princess Fredericks, Jerome, brother of the Emperor Napoleon, eludes the guards and takes passage to America, where he is reunited with Betsy. You'll love it when you see it.

The Evil Of Grain Mixing

Following the unsatisfactory result of grading the 1928 wheat crop of Western Canada, a veritable deluge of protest and complaint has poured in to Dominion and Provincial Governments, Wheat Pool, Grain Commission, Grain Exchange, and all farmer organizations. Merchants and business men generally, suffering because the farmers have suffered, add their protests. In all this volume of criticism perhaps no one feature has called forth more vigorous objection than has the practice of mixing.

It is quite true that everybody does not see eye to eye on this subject, and farmers themselves are sharply divided on the issue whether or not mixing should be absolutely prohibited and made an offence under the law. While many favor such a policy, others hold the opinion that if mixing was entirely disallowed there would be a terrible drop of low grade and no grade grain on the market, with resulting enormous loss to producers.

The Saskatchewan Grain Inquiry Commission has gathered within its own province a mass of evidence on this and allied subjects affecting the grading and marketing of Western grain, and proposes to carry its investigations further afield in Manitoba, Alberta, British Columbia, and Europe, in what is recognized as the most determined attempt yet made to find solutions to some of the acute problems confronting the Western grain grower. In due time the report and recommendations of that Commission will be laid before the legislative authorities.

There is, however, another form of mixing in regard to which there are no two opinions. It is unanimously denounced as an evil, and one that is costing the farmers of Western Canada many millions of dollars annually. Furthermore, control in the case of this particular form of mixing rests, not with Governments or Wheat Pools, or Grain Commissions, but with the individual grain grower.

The form of mixing to which reference is made is that indulged in by so many farmers of sowing seed of mixed varieties. Instead of sowing only pure seed of one good variety, the seed too frequently used is a mixture of different varieties, white wheats mixed with red wheats, with consequent loss in value of the crop harvested. Thus the original mixing takes place, not in country or terminal elevators, not on board ship, not in the world markets, but right on the farms of Western Canada.

Investigation over a number of years has established the fact that certain varieties are best adapted to certain districts. This information is available to every farmer. It is his for the asking from his nearest Experimental Farm. He should secure this information and then sow the variety which grows best in his district. He may not be able to afford to purchase sufficient pure, registered seed of that particular variety to seed his entire acreage this year, but he should get a few bushels of such pure, registered seed, sow it in a prepared plot, and thus increase his seed supply on his own farm.

The fronts of last fall make it necessary that all seed sown this spring be first tested for its germinating qualities. Strong germination is necessary in wheat, oats, barley and flax. Strong plants having healthy vigorous roots withstand adverse conditions such as spring frosts, insects, disease, better than weak plants. Farmers will be well advised, therefore, to send samples of their seed grain to their nearest Dominion Seed Laboratory and have it tested.

There is still another form of mixing on the farm which is even more disastrous, that is the mixing of weed seeds with the grain through the use of impure and not properly cleaned seed. Governments and railways combine to run special seed cleaning machinery demonstration through the country. Governments build seed cleaning plants. Nevertheless, tons of weed seeds are sown annually, as well as mixed varieties of grain, as was definitely proven by the seed drill survey conducted in Saskatchewan a couple of years ago.

Western Canadian farmers must begin at the beginning in dealing with this mixing evil. First, it is essential that all seed sown be of one good variety, thoroughly cleaned, with all weed seeds eliminated, and tested to demonstrate its germinating qualities. With the groundwork thus laid for the production of clean, high grade grain, necessary further steps can and should be taken to preserve the identity, grade and standard of that grain all the way from the farm to the ultimate world market.

Girl Champions In West Honored

Banquet Tendered To Members Of Prince Albert Swine Club

Unique in the history of the Agricultural Society, of Prince Albert, Sask., was the banquet tendered recently, to the young members of the Prince Albert Swine Club. Misses Alice Peas, and Kathryn Coyer, winners at Toronto, of the trophy presented by Vice-President W. D. Robb, of the Canadian National Railways, emblematic of

Dominion championship among swine clubs of Canada in the annual judging and demonstration contests. Mayor Bamion, of Prince Albert, presented each of the girls with a wrist watch on behalf of the agricultural society.

Chinese Population In Canada

Number Of Chinese Resident In Dominion Is Given As 55,706

According to reports tabled in the House of Commons, three Chinese immigrants are admitted to Canada during the fiscal year 1927-28, two of whom were women. Two students coming to attend Canadian universities were admitted as non-immigrants. Eleven Chinese were deported during the year.

The registration carried on during 1923-24 shows a Chinese population in Canada of approximately 55,706. Of this number, 48,308 were males, 1,302 females, and 6,096 children under 18 years of age. Of the total, British Columbia had 31,116 Chinese residents.

The number of Japanese entering Canada in 1927 was 513, and in 1928 532. Of the total for two years, 873 were adult males, 567 adult females, and 216 children under 18 years of age.

All the big nations have agreed not to go to war, so they are now building warships to give the sailors a ride.

An elephant's bath requires 150 pounds of soap and more than \$100 worth of the purest Indian oil.

Minard's Liniment prevents Flu.

Reduce Aviation Expenditures

British Government Decides To Lessen Appropriation For This Year

British estimates for government aviation expenditures during 1929, presented to the House of Commons by Sir Samuel Hoare, air secretary, total \$31,000,000. This is a decrease of about \$200,000.

In connection with the estimates, Sir Samuel said the new airships, the R-100 and the R-101, should be completed early in the financial year.

"The two airships should begin the trials in the spring and I hope to see the flights to overseas bases, such as Montreal and Kowloon, achieved during the year," Sir Samuel added.

SPARKLING EYES AND ROSY CHEEKS

The Birthright Of Every Girl With Rich, Red Blood In Her Veins

The dull eyes that go with bloodlessness is a sure sign of misery and weakness. Anemia—that is bloodless—girls and women have dull, heavy eyes with dark lines under the eyes. But this is not all. Anemia works havoc all through the system; girls grow painfully weak and irritable; they are breathless and incapable of much exertion, while older women who are anemic complain of being "never really well."

There is only one way to bring brighter, better health for pale, pinning girls and women. That way is to invigorate the body with new blood—rich, healthy blood that imparts strength and restores the bright eyes and rosy lips of perfect health. That Dr. Williams' Pink Pills make new rich blood and brighten and strengthen has been proven in thousands of cases. One such case is that of Miss Margaret White, Parr Sound, Ont., who says: "I was attending high school and as examinations were coming on I was working hard, and began to feel easily tired, and often had severe headaches. What I set down for a neuralgia I did not want to eat. I went to a doctor who told me that I was anemic. I took his medicine, but made little progress. Then my aunt, who had great faith in Dr. Williams' Pink Pills, got me a supply and I began taking them. I soon noticed that my appetite was improving, that the headaches came less frequently and that I was not so easily tired. I went away to camp for my holidays, taking the pills with me and taking them regularly. The result was that I returned home a healthy girl, my weight increased, my cheeks grew rosy and every ache and pain had vanished. I strongly recommend every weak girl to give Dr. Williams' Pink Pills a fair trial."

If your dealer does not keep these pills you can get them by mail at 50¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta Dairy Products

Exceeded In Value Twenty Million Dollars For 1928 Season

Alberta's dairy products for 1928 exceeded in value \$20,000,000, which represented 8.3 per cent. of total agricultural production. Dr. C. P. Marker, dairy commissioner, told delegates at the recent dairymen's convention in Edmonton. There was a marked improvement in the grade of cream supplied by producers and in the quality of creamery products, he declared.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonical and health-giving in their effects.

Dairying In Okanagan District

The North Okanagan District is turning increasingly to the dairy industry with profitable results. Cream cheques totalling \$250,000 were paid out during the past year.

Great Britain produced 252,000 tons of coal in 1927.

Start Construction Of Ocean "Landing Field"

First Floating Airport To Be Anchored Half Way Between New York and Bermuda

Construction of the first floating airport of several that have been planned for trans-Atlantic airplane service will be begun immediately, according to an announcement by Henry J. Glew, Inc., naval architects. It is to be anchored about 300 miles at sea, half way between New York and Bermuda.

The airport is to be a steel platform, 1,200 feet long, 400 feet wide, and riding normally at least 100 feet above the surface of the ocean. It is to be manned by a crew of forty-three men and will contain a machine shop, hotel and restaurant, and radio beacons to guide planes at night.

To hold this floating island in place there will be chains 21,150 feet long attached to specially designed sea anchors. Six thousand tons of steel and 2,000 tons of iron will go into the construction and its cost is estimated at \$1,500,000. The Glew concern has been retained as consulting engineers by the builders, the Armstrong Seadrome Development Company of Wilmington, Del.

It is understood that Mr. Armstrong expects the island to be in place by summer. Experimental flights then will be made between the mainland and Bermuda, using the seadrome as a stopping place. If these experiments are successful, the construction of other floats for trans-Atlantic service will be pushed as quickly as possible.

The Armstrong company already has conducted tests with large Sikorsky amphibians on areas similar to that of the seadrome, and needs only 65 per cent. of the available space. By scale model tests the company has convinced naval engineers that the seadromes will ride any waves up to 150 feet in height with practically no motion. Eight of these islands are contemplated. It is said, in a chain to Europe by way of the Azores. Planes then would be able to leave New York at 6 o'clock in the morning and arrive at Plymouth, England, at 4:30 o'clock the following afternoon.

It Will Prevent Ulcerated Throat. At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were previously subject to quinsy have thus made themselves immune to attack.

Recipes For This Week

(By Betty Barclay)

ORANGE BREAD

- 1 yeast cake.
- 1/2 cup lukewarm water.
- 1 egg.
- 1 tablespoon melted butter.
- 1 tablespoon melted lard.
- 1 teaspoon salt.
- 2 tablespoons sugar.
- Grated rind 2 oranges.
- 1/2 cup orange juice.
- 3 cups flour.

Dissolve yeast in warm water; add egg well beaten, butter, lard, salt, sugar, grated orange rind, orange juice and flour. Beat until smooth; knead until smooth and elastic; let rise till double its bulk; shape in double loaf; put in breadpan; let rise again to double its bulk, and bake one hour in a moderate oven. This bread is delicious with orange marmalade for afternoon tea.

CARROT FUDGING

- 1 1/2 cups flour.
- 1 cup brown sugar.
- 1 cup grated carrots.
- 1 cup grated potatoes.
- 1 cup raisins.
- 1 cup currants.
- 1 cup finely chopped suet.
- 1 teaspoon soda.
- 1 teaspoon molasses.
- A little nutmeg.

Dredge fruit with some of the flour and scald soda before adding. Mix well and steam three hours.

Minard's Liniment for the Grippe and Flu.

Kaiser Cost Germany Millions Every Year

Abdication Has Saved Country Large Sum In Salaries

It has been figured that Germany in the last 10 years has saved \$125,000,000 in salaries to the former royal rulers of the empire. Before the war the Kaiser cost Germany \$5,204,000 a year. Then came three kings—of Bavaria, Saxony and Wurttemberg—and seven grand dukes, who cost Germany more than \$5,000,000. Besides these royal "appointments" the other expenses of the imperial system brought the annual expenditures up to \$12,500,000. Of course there had to be big armies and generally increased cost of royal show under the royal government but this further cost could hardly be estimated.

PARENTS UNDERSTOOD THIS BABY'S LANGUAGE

"We thought we were going to lose our baby, testing," says a Kentucky mother. "He couldn't digest anything and was getting thinner every day. After one of his fretful, crying nights, I thought of Castoria and got some. A few drops made him comfortable, and after a few doses, he seemed like a different baby." Doctors everywhere recommend purely vegetable, harmless Fletcher's Castoria for colds, constipation, colic and other ills of babies and children, and millions of mothers know its gentle influence is best. Avoid imitations. The Fletcher signature is the mark of genuine Castoria.

Westerners Win Debate

The Western Canada Universities debating team, supporting the affirmative of the resolution "That this house is opposed to all forms of censorship," was given the decision over debaters from Dalhousie University at Halifax, recently.

Area Under Pasture

The total acreage under pasture in Canada in 1928, was 9,528,943 acres.

NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines. Next time you have dying to do, try Diamond Dyes. See how easy it is to use them. *Then compare the results.* Your dealer will refund your money if you don't agree they are better dyes. You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay no more for them than for ordinary dyes. The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or fast silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

GOOD ADVICE FROM MOTHER OF SEVEN

Recommends Lydia E. Pinkham's Vegetable Compound

"Toronto, Ont.—"I began taking Vegetable Compound for nervous and other troubles and I must say I felt different after the first dose. I have been told this is six months that I look twenty-five, although I am now forty-seven and have had seven children. I have taken the Vegetable Compound regularly for some time and sleep well, rise early and feel young."—Mrs. McKee, 18 Laurier Ave., Toronto, Ontario.

W. N. U. 1777

ALBERTA PLANS GRAVELLING OF THREE HIGHWAYS

Edmonton, Alta.—The province of Alberta plans to expend a total of at least \$100,000 on improving roads within the next three years, says Hon. D. L. McPherson, minister of public works, told a delegation from the Alberta Motor Association which interviewed the government recently.

Of this huge sum, during the year 1920, said the minister, the government will spend the sum of \$45,477, 633 out of capital and income accounts. This figure, however, includes interest and sinking fund charges on previous capital expenditures.

The expenditure for 1920 will cover the complete graveling of three main highways from Central Alberta west to the Saskatchewan border. Of these three main highways, one of them, the gravelled road leading east from Calgary through Bassano, Medicine Hat, and on to Walsh, on the Saskatchewan border, will complete a trans-provincial highway clear across the province.

Thus, this main gravelled highway will extend from the Saskatchewan border through Medicine Hat, Bassano and Calgary, making up with the gravelled highway to Banff.

Britain Plans Second Imperial Air Line

Will Link Capetown With London Says Air Minister

London, England.—Arrangements have been concluded for a second great imperial air trunk line, the two being approximately the same distance and being thus far the longest regular service in the world. Sir Samuel Hoare, air minister, announced in the House that arrangements have been concluded for a service between London and Capetown. A service between England and India, also approximately 4,000 miles, has been operating for some time, a provisional time table having been issued for this some weeks ago.

Negotiations between the various African governments, particularly the Union of South Africa, for reception of a weekly air service between London and Capetown have been brought to a successful conclusion, the air minister announced.

Heavy Snow in Colorado

Two-Day Storm Isolated Small Towns Near Denver

Denver, Colo.—Small towns and villages in the Rocky Mountain region were marooned by snow that covered highways to a depth of three feet in places, following a two-day storm.

The storm area extended northward to the Canadian border, spreading a white blanket over Montana, Colorado and Wyoming.

A group of high school boys rescued Frank Nelson, 74, from his cabin near Mount Alma, fifteen miles from the famous Cripple Creek mining district of Colorado, where he had been marooned without food.

Wins McKee Trophy

Award For Meritorious Service Given To Western Air Ace

Ottawa.—Captain C. H. "Punch" Dickens, commercial pilot of Edmonton, Alta., has received the McKee trophy award for 1923, for meritorious service in the advancement of aviation in Canada. During the twelve months he spent a total of 1,025 hours in the air, a remarkable achievement when consideration is taken of the fact that Dickens performed most of his duty in the northern sections of the Dominion.

Announcement of the award was made by Colonel J. L. Ralston, minister of national defence.

Noble's Resignation Accepted

London, England.—The Exchange Telegraph Company said it had been officially announced at Rome that General Umberto Noble, commander of the ill-fated Italia expedition, had resigned his rank and office. The resignation was accepted.

Was Hero Of Gallipoli

London, England.—General Sir Charles Newbould, who at Gallipoli was named as hero in the Gallipoli and Saloniki defences and was slightly wounded and mentioned in despatches, is dead at the age of 61 years. He retired in 1924.

W. N. U. 1777

Wants Canada To Develop Helium Gas

Operation Of British Dirigible Would Necessitate Obtaining Gas Here

London, England.—Development of helium gas for use in airships in Canada is a possible development of the building of the giant dirigibles for trans-oceanic transport by the British air ministry, Sir Samuel Hoare, air secretary, intimated in the House of Commons. He said it was hoped to approach the Canadian government later to see whether it would be possible to produce helium in Canada as the gas is produced and used extensively in the United States.

The two airships, he hoped, would be ready to take the air by spring or early summer.

If the home tests are successful it is proposed to make a flight to Egypt and India, and then to Montreal.

Toronto.—Large quantities of helium gas can be produced from the gas wells of the Bow River Valley, of Alberta, to the south of Medicine Hat. The production of helium in commercial quantities was first accomplished in Canada during the war as a result of researches made by Prof. J. C. McLennan, of the University of Toronto.

Helium is non-inflammable and though less buoyant than hydrogen, is much safer.

Radiogram Received From the Antarctic

Welsh Society Of Scientists Gets Message From Scientist With Byrd Expedition

Saskatoon.—A radiogram from the Antarctic, relayed by mail by the New York Times, has been received by Thomas Phillips, Saskatoon, from Frank Davies, in which the latter wishes the Saskatoon Welsh Society a joyous reunion for 1924.

Mr. Davies, at one time an instructor on the University staff here, and now a scientist with Commander Richard E. Byrd, in his expedition to the South Pole, sent the message on February 28 from "Little America," Antarctica, and it was received in New York on March 2, too late for the local celebration, which took place March 1. The document will nevertheless form a valuable item in the archives of the Welsh Society in Saskatoon.

Telephone Service Increased

Hundred Line Extension Has Been Completed At The Pas

The Pas, Man.—It was announced by H. Coddington, commercial superintendent of the Manitoba Telephone system, that arrangements for another hundred line extension on the switchboard in The Pas exchange are complete.

"When we took the plant over last July, we had 237 subscribers," said Mr. Coddington. "Today we have 265, and it looks as if we will go over the 400 mark within the next two months."

"We intend to extend the long distance facilities north to Ft. Flin Flou during the present season and we have set aside \$10,000 for this work," Mr. Coddington said that the long distance business originating in The Pas was far beyond expectations.

Fire Sweeps London Factories

Heavy Loss In District Occupied By Paper Houses

London, England.—The biggest fire that London has experienced in a long time caused heavy damage on the south shore of the Thames in a district occupied by paper and tin factories. Three hours after the first alarm, flames were shooting 100 feet into the air, a whole series of the factories being ablaze.

A large part of London was illuminated by the blaze. Scores of fire engines and hundreds of firemen were trying to prevent further spread of the conflagration. They managed to avert danger from neighboring workmen's homes, although the families fled.

One of the losses in the fire was 400 tons of newspaper paper.

Famine In Uganda

London, England.—A dispatch from Kampala, Uganda, to the London Daily News, reports thousands of persons dying of famine in Belgian Uganda. Motorists saw hundreds dying on the roadside attempting to cross the border into British Uganda, the dispatch said.

Scientist Dodges Publicity

Berlin.—Prof. Arthur Einstein and Mrs. Einstein left Berlin to avoid publicity on the famous scientist's birthday. He was 50 years old on March 14. They went to an unnamed country place for a short visit.

Estimates For British Air Force Criticized

Kellogg Pact Has Not Changed Policy, Says Labor Member

London, England.—Joseph M. Kenworthy, Laborite member of the House of Commons, bitterly criticized the British government in debate upon the 1923 estimates for the air force. He said the government's estimates bore no trace of any change in policy since Britain signed the Kellogg anti-war treaty.

Kenworthy criticized the "enormous cost" of the air station at Singapore and also the utilization there of young airmen and "expensively trained cadets."

"I could have understood it two or three years ago, before the signature of Great Britain was affixed to the Kellogg anti-war pact," he said.

A total of \$2,500,000, a fifth of which is to be spent this year, he said, is to be devoted to the Singapore station.

"If the station is merely for defence of a new doorway, that is an extraordinarily large sum," he said.

Sir Samuel Hoare, secretary for air, replied that the expense is part of the general expenditure at the Singapore base, and that Singapore would be capable of handling the aerial side of any operations of the naval base.

"Even if there were no naval base at Singapore, the air base would be necessary," Sir Samuel said, "as it is the cardinal point of our communications."

HOUSE PASSES BILL FOR C.P.R. BRANCH LINES

Ottawa.—The Canadian Pacific Railway bill for branch line extensions completed its passage in the House of Commons, when it was given third reading. The bill emerges intact, with the exception that the proposed Sutherland-to-Melfort line in Saskatchewan was eliminated in the commons committee. The bill now goes to the senate.

The measure authorizing the Canadian National branch line developments still stand for third reading on the order paper in the commons. The bills have been held up on account of the budget delays, but will likely soon be accepted and passed on to the senate.

The C.P.R. bill, being a private one, came up during the hour in the house set aside for private members' bills. It passed with little or no discussion. The house also quickly gave third reading to the bill which will incorporate Barclays Bank (Canada) without amendment.

The Disarmament Question

Britain and U.S. Must Agree In Matter Says Balfour

Buffalo.—The question of Anglo-American relations overshadows all other political topics in the interest of the British public, according to Sir Arthur Balfour, chairman of the British Industry and Trade Commission, which is conferring with the statesmen.

"We feel, in England," he said, "that unless our two countries can work in agreement, the cause of disarmament is lost. We will lose the respect of continental powers and another war is on the way."

A happy group of Britishers who have just arrived in Canada under the new ten-pound fare. Asked for comments as to the possible movement under this reduced rate, officials of the Department of Colonization and Development, Canadian Pacific Railway, say: "While we are hopeful, of course, that consistent with the needs of the Dominion, many will take advantage of the opportunity afforded by the new rate, it is far too soon to state that much may be expected. Indeed there are indications that, apart from the first stimulus arising from the novelty of a new rate, the majority taking advantage of it are not looking for agricultural opportunities, and cannot therefore be readily placed through existing colonization organizations. The movement as a whole, therefore, may prove to be disappointing."

Left Large Estate

Toronto.—William Kellisher, ex-cabman of Toronto, who died recently at the age of 83 years, left an estate valued at approximately \$200,000. Mr. Kellisher, who arrived in Toronto penniless more than 40 years ago, willed \$150,000 to local orphanages.

SHOWS RECORD SURPLUS

Hon. James A. Robb, minister of finance, who introduced the budget in the House of Commons, on March 1, in which he trimmed down taxes, reduced debt and revealed a record surplus of \$95,782,000.

Expect To Complete Railway In April

Line To Churchill Being Steadily Pushed Onward

Winnipeg.—Within sight of the sea, steel laying workers are pushing steadily onward to Fort Churchill, terminus of the Hudson Bay Railway, and early in April, unless the unforeseen occurs, will have completed their work.

Telegraph communication with Churchill was established for the first time on March 12, and steel is now within 12 miles of the port, stated H. A. Dixon, regional chief engineer of the Canadian National Railways, here. Construction material for work at the port already is en route north.

Many Applications For Assisted Passage

Approval Given Large Percentage Of Prospective Settlers

London, England.—In the thirteen months ending January 31, 1923, 658 families and 28,468 individuals not included in families applied for assisted passage to Canada. Right Hon. L. C. M. Amery, secretary of state for the Dominions, told the House of Commons. Of these, 2,772 families, and 112,000 individuals had been approved and 2,140 families, and 15,381 individuals had sailed for Canada. These figures did not include the special scheme under which the party of British miners went to Canada as harvesters.

Prove King Is Recovering

London, England.—The papers are giving great prominence to the first photographs of King George, taken since his arrival at Craigview House. They show His Majesty seated in a bath chair in the grounds with Queen Mary standing beside him. The photographs lend confirmation to recent reports of the King's favorable progress toward recovery.

Plot Has Freak Accident

British Airman Had Propeller Shattered In Encounter With Hawk Chase, Capt.—Victim of a freak airplane accident, flying Cadet R. G. Hamilton, R.F.C., was forced down in a ploughed field near Cans, six miles north of here, with the propeller of his pursuit plane shattered, the result of an aerial encounter with a hawk.

Secretary To Trade Minister Honored

H. O. Campney Leaving Government Service To Practice Law In Vancouver

Ottawa.—A complimentary dinner was tendered in the restaurant of the Parliament Buildings to H. O. Campney, who for a number of years has been private secretary to Hon. James Malcolm, minister of trade and commerce. Mr. Campney is leaving the government service to practice law in Vancouver. Members of the parliamentary press gallery and the department of trade and commerce attended. E. W. Grange presided.

Want Police Force Similar To Mounties

Idea Suggested To President Hoover To Stop Smuggling

Washington.—A federal constabulary, similar to the famous Royal Canadian Mounted Police, has been suggested to President Hoover as a means of ending liquor smuggling across the Canadian and Mexican borders.

The constabulary would deal not only with rum running, but also with immigration smuggling, and the ordinary run of merchandise smuggling operations now under the eyes of the customs service.

Wants Treaty Signed

U.S. Senator Urges Regulation Of Sockeye Salmon Catch On Pacific

Washington.—The treaty to authorize Canada and the United States to regulate the catch of sockeye salmon on the Pacific coast was brought to the notice of President Hoover and Secretary of State Kellogg again by Senator Wesley Jones, of Seattle. Senator Jones hopes to get the treaty signed before Secretary Kellogg leaves office. He also hopes to get the treaty on the calendar of the special session of the senate beginning April 15 next.

Russian Miners Killed

Moscow.—Twenty-seven miners were killed when a crowded cage fell in shaft near Gorkovka, in the Donetsk coal basin.

Auto Driver Killed Trying For Record

Machine Out Of Control Crashed Into Sand Dunes

Ocean Speedway, Daytona Beach, Fla.—Lee Bible, 42-year-old Daytona Beach garage mechanic, rode to a spectacular death in the 36-sylinder racing car which he was vainly attempting to break the world's speed record of 231 miles an hour, made by Major H. O. D. Seagrave, of England. Speeding at more than three miles a minute, the machine got beyond his control and crashed into the sand dunes, striking and killing also Charles Traub, a news reel cameraman. Bible left a wife and two children.

The accident, one of the most tragic in the history of beach racing here, occurred just after Bible crossed the measured mile course at a speed of 202 miles an hour, and was witnessed by a crowd of approximately 20,000 spectators who lined the sand dunes for miles.

To Fight "Red" Menace

Manitoba Command Canadian Legion Asks Action Against Communists

Winnipeg.—Eradication of Communism from Canada and the prosecution of those responsible for its spread, was demanded in a resolution unanimously adopted at the fourth annual convention of the Manitoba command, Canadian Legion, British Empire Service League.

The convention also urged that the Communists be prohibited from holding meetings in public schools.

Communists, the delegates declared, were attempting to instill their doctrines into the minds of children and the newly-arrived immigrant.

Communist ideals were being circulated in literature and songs "grossly blasphemous, seditious and contrary to the teachings of Christianity."

They would "demoralize youth and would lead to ultimate bloodshed, revolution and the breaking down of all religious and civil authority."

Expect To Complete Railway In April

Line To Churchill Being Steadily Pushed Onward

Winnipeg.—Within sight of the sea, steel laying workers are pushing steadily onward to Fort Churchill, terminus of the Hudson Bay Railway, and early in April, unless the unforeseen occurs, will have completed their work.

Telegraph communication with Churchill was established for the first time on March 12, and steel is now within 12 miles of the port, stated H. A. Dixon, regional chief engineer of the Canadian National Railways, here. Construction material for work at the port already is en route north.

Many Applications For Assisted Passage

Approval Given Large Percentage Of Prospective Settlers

London, England.—In the thirteen months ending January 31, 1923, 658 families and 28,468 individuals not included in families applied for assisted passage to Canada. Right Hon. L. C. M. Amery, secretary of state for the Dominions, told the House of Commons. Of these, 2,772 families, and 112,000 individuals had been approved and 2,140 families, and 15,381 individuals had sailed for Canada. Plot Has Freak Accident

British Airman Had Propeller Shattered In Encounter With Hawk Chase, Capt.—Victim of a freak airplane accident, flying Cadet R. G. Hamilton, R.F.C., was forced down in a ploughed field near Cans, six miles north of here, with the propeller of his pursuit plane shattered, the result of an aerial encounter with a hawk.

Cadet Hamilton, attached to the British airplane carrier, H.M.S. Hermes, now at San Diego, was flying from that city to Vancouver, B.C., when the freak accident occurred.

BRITAIN HAS NEW SCHEME TO HELP SETTLERS

Ottawa.—A new assisted passage scheme to provide Canadian farmers with British workers has been announced by the Department of Immigration. Young men in the British Isles who have not been able to find the present £10 steamship fare, are to be recruited and after examination by Canadian immigration authorities will be lent their passage money by the British government. The movement will start within a month, it is expected, and several thousands men will probably be brought out this year.

The proposal announced will embrace a limited number of unemployed miners, physically fit, but not necessarily of the skilled farmer class, who come under the present assisted passage scheme.

A survey of the various provinces is at present being conducted by the department and the number of men to be assisted will depend upon the demand for agricultural workers.

The new scheme is explained to be quite different from the miner-harvester scheme of last year. The men must demonstrate a desire to settle permanently in this country, and no provision is made to provide return fares at the end of the harvest. None of the expense is to be borne by the Canadian government.

While applicants need not have farm experience, they will be carefully chosen with regard to physical fitness and willingness to accommodate themselves to conditions.

The new program is to be supplementary to the present assisted passage schemes already in effect. The most important of these is the £2 steamship fare for agricultural families, with free passage for children.

THE TEN-POUND FARE

A happy group of Britishers who have just arrived in Canada under the new ten-pound fare. Asked for comments as to the possible movement under this reduced rate, officials of the Department of Colonization and Development, Canadian Pacific Railway, say: "While we are hopeful, of course, that consistent with the needs of the Dominion, many will take advantage of the opportunity afforded by the new rate, it is far too soon to state that much may be expected. Indeed there are indications that, apart from the first stimulus arising from the novelty of a new rate, the majority taking advantage of it are not looking for agricultural opportunities, and cannot therefore be readily placed through existing colonization organizations. The movement as a whole, therefore, may prove to be disappointing."

SHOWS RECORD SURPLUS

Hon. James A. Robb, minister of finance, who introduced the budget in the House of Commons, on March 1, in which he trimmed down taxes, reduced debt and revealed a record surplus of \$95,782,000.

H. MELLOR - LANGDALE

L.R.A.M., L.A.B., A.R.C.M. (Eng.)

**Professor of Singing, Voice Production and
Advanced Pianoforte Playing**

Will be in Blairmore Every Monday

Competitors Prepared for the Musical Festival

[At Lethbridge, 1928, Mr. Langdale's pupils won Four Gold Medals]

ADDRESS
621 Tenth St., Lethbridge, or Blairmore Enterprise

Mother: "Jessie, the next time you hurt pussy I am going to do the same thing to you. If you slap it, I'll slap you. If you pull its ears, I'll pull yours. If you pinch it, I'll pinch you."

Jessie (after a moment's thought): "Mamma, I'll pull its tail."

Mike was engaged to do a job for Mr. Smith. After a while, he came in, saying that the job was finished and asked for his money.

"But, Mike, I wanted two coats of paint on that building," said Mr. Smith.

"Begorra, you've got it," said Mike. "I mixed the first coat with the paint for the second coat and put both coats on at the same time. Speed is my motto."

Two convicts were talking. "You know," said one, "it took John Bunyan all his life to write a story."

"Garr," was the reply. "It took me ten years to do a sentence."

Eggs, fresh first, per dozen 35c—BURNS & CO., LTD.

Would some please enlighten us: "Why do they put buckles on ladies' overhoes?"

It cost the A.A.H.A. around \$40 to entertain Harry Scott at High River and Nanton.

Shamrock Pure Lard, 3 lbs 65c; 5 lbs \$1.10, Friday and Saturday—BURNS & CO., LTD.

E. S. Martin has tendered his resignation as principal of the Fernie public schools, to take effect May 31.

LOST, on Monday night, a lady's square spotted neck scarf. Finder will please leave same at The Enterprise office.

A fine of \$1000 under the Liquor Act has been imposed upon the Lethbridge hotel for having kept their beer shop open for a minute or two after ten p.m. It is understood the hotel people will enter an appeal.

Local and General Items

Fresh pork shoulder steak, per lb 25c—BURNS & CO., LTD.

The Altermatt Orchestra furnishes music for the Moose Saturday night dance.

J. A. Smith, high school inspector, was in the Pass this week on official business.

Fresh loin pork, Friday and Saturday, at 25c per lb.—BURNS & CO., LTD.

Watch for William Boyd, star of "Volga Boatman," at the Orpheum next week in "Power."

Don't forget to see Charles (Buddy) Rogers, star of "Wings," in "Varsity" next week. It's a dandy. Orpheum.

Sunday should be an excellent day for representatives of the Lord's Day Alliance to operate in a town. The sinners are usually out motoring on that day.

Joliet Houbregs and Dave Kemp, who had been to Calgary to see the Trail-High River playoff, stopped off here to meet their friends and relatives on their return trip to Trail.

CUT FLOWERS, delivered anywhere at anytime. A shipment of Potted Plants to arrive the early part of next week—F. M. THOMPSON CO., LTD.

The Trail Smoke Eaters had no difficulty in downing the High River Fliers for the right to represent the western provinces in the Allan Cup playoffs at Winnipeg. High River took the short end of an eight-to-two score.

Mrs. S. S. Savage, of Calgary, grand worthy matron of the Order of Eastern Star in Alberta, is this week paying an official visit to the O.E.S. lodges in this district, including Blairmore, Coleman, Hillcrest and Pincher Creek.

"Redskin" is photographed in natural colors. All the natural beauties of the open spaces will be revealed before your eyes. See it at the Orpheum Friday and Saturday.

The members of Crowfoot Rebekah Lodge will hold an afternoon tea and sale of home cooking, etc., in the Lodge Hall on Wednesday, April the 10th, to be followed in the evening by a whist drive and dance, with the Altermatt orchestra in attendance. Keep this date in mind.

At the annual session of Grand Temple of Pythian Sisters, held in Calgary last week, Mrs. Robert Gray of Blairmore, was elected and installed as grand mistress of records and correspondence. Greenhill Temple was represented at the Calgary convention by Mrs. Gray and Mrs. W. Lord.

Fresh killed lamb arriving Friday, at right prices.—BURNS & CO. Ltd.

H. R. Huntington, official auditor for the city of Fernie, in submitting his annual report, draws attention to the fact that "the school buildings and equipment are insured for so small a proportion of replacement cost, that in case of serious fire in any of the properties there would be a heavy loss, and wish to point out that the provincial government has notified this corporation that in case of destruction by fire of any school properties no further grants will be made by the government toward the cost of rebuilding the properties so destroyed. This means that the corporation would have to bear the entire loss in excess of the amount of insurance collected and in view of these facts I strongly recommend the placing of additional insurance on all school properties, to bring the insurance in force more nearly up to replacement costs."

Special Prices on Shamrock and Dominion Hams and Bacon for the entire week.—BURNS & CO., LTD.

Fresh pork sausage, per lb 25c—BURNS & CO., LTD.

The ladies of the United church will hold their annual Easter sale of work, home cooking, candy, cut flowers, etc., in the Elks' hall on Thursday, March 28th. Tea will be served from 3 to 6 p.m.—M14-21.

The class had to write a sentence in which the phrase "bitter end" should appear. Billy Stewart wrote: "Our dog chased the cat and bit 'er end."

Glendale Butter, the climax in quality per lb 50c.—BURNS & CO., LTD.

The East Kootenay Power Company is adopting the plan of a large number of manufacturing and employing concerns in offering to their employees shares in the company at a price many dollars below the market.

We quite appreciate the regrets expressed by Fernie in Blairmore losing out in the Alberta play-offs. Never mind, next year our boys will demand that the game be played fairly and squarely on the ice and not by side swingers.

Swift's Premium Hams, for Easter, 8 to 10 lbs, at 39c per lb. Order now for delivery next week.—F. M. THOMPSON CO. LTD.

A synopsis of the programme for the forthcoming Crows' Nest Pass Musical Festival will appear in our next issue. It is hoped to get the entire programme through in three full days. There are a much larger number of entries this year than last.

Fresh halibut, salmon, cod, arriving weekly from the coast, quality unsurpassed.—BURNS & CO., LTD.

Don't forget the big fight pictures at the Orpheum Monday and Tuesday. Jack Sharkey and Young W. L. Stribling. Also Napoleonic romance. A programme worth the price of admission. You'll say it when you see it.

One hundred real fans accompanied the Blairmore Bearcats to Nanton to show their appreciation of High River's four persons' only presence at Blairmore two nights previous. High River citizens tendered a banquet to their successful team, at which Calgary was represented and thanked for their assistance. Now, what about Blairmore tendering a bigger and better banquet, at which to show our appreciation of an even greater success than High River's, and at which to have High River represented to help us thank all the rest of the province of Alberta and the bigger portion of British Columbia for their support of our fair-and-square unbeaten team.

AGENTS WANTED—Don't work for others. Make \$75.00 weekly or more, easy, pleasant work. Everybody a sure prospect. Para Products Corp., 54 Mt. Royal Ave., West, Montreal, Quebec.

ENGAGEMENT RINGS
